Letter of Intent

I have two choice for field of study, first is about computer engineering because I choose it from my experience and education background. And second choice is about electronic engineering because this field is my interesting and I want to study. The reason that I choose to study at Turkey because in Turkey there are a lot of Islamic civilizations and modern technology. Including people in many cultures that is suitable for me to study and get new experience from there. In my opinion if in the future I can study in Turkey, I would like to collect various knowledge from there to be a new knowledge for me and another thing that is indispensable is the experience of friends who come from different cultures by sharing a cultural exchange to each other. Which all is enough to be a precious gift to me as a person who seeks new learning experiences.

In this section, it is expected to explain following details: your academic and social experiences relating the field you want to take an education, your reasons for choosing Turkey for study and the importance of your future plans for your education and scholarship in Turkey. You can write the letter of intent in the language you can express yourself.

Computer engineering

1- Subject of study

Student activity system for Fatoni University

2- Working Title (Up to 15 words)(Please write in short and concise terms the title of your work as a thesis or an article title.)

There are several problems, first is Now every step of activity of Fatoni University uses the manual system and do not have the data base for collect the activity, it makes be difficult to collect the old data if paper broken or lost. Second is the staff and student organization cannot know the number of participants in advance, it hard to assess the activity. Then the Officer of student development cannot examine the truly of participation of the student activity. The last is the assessment of student activity was not thoroughly assessed.

3- Analysis of the Problem (at least 75, maximum 300 words)(In this section, briefly describe the topic and your theory (concept map) to be used in the study.)

This method I go to interview the user of this system. There are two types of person who got the benefit from this system first is student, they tell me now students use an activity book for collect all data of the activity's participant and if activity's book broken or lost, the data will be lost. Students have to buy the new activity's book and collect sign of pass activity from header of that activity again. And the second is Staff of activity in Fatoni University, they tell me it is too hard for find old information cause, activity manager still uses the paper in every step of activity and do not have the database for collect the data. Which, if student do not have the participation information it will hard and lost time for officer of student potential development to check for give the activity certificate or get various privileges that relate with activities' participation.

4- Research Method (minimum 50 maximum 300 words)(Give information about the academic research methods you intend to use in this study. For example, in-depth interviews, observations, surveys, experiments, etc.) For example, in-depth interviews, observations, surveys, experiments, etc.)

To develop FTU Student Activity System. It is a web base system that is to develop for Fatoni University and it operate via network, which can help the system to operate with systematically and it will make a convenient for all user of this system as well.

5- General Structure of the Study (at least 75, maximum 300 words)Write the main headings of the study.)

This study will contribute to my academic field by this project can be develop to be more efficiency and it will

give benefit to user as much as possible.

6- Academic Contribution of the Study (minimum 75, maximum 300 words) (Explain how this study will contribute to your academic field.)

If many things in the event turn to be digitally, the cost of hiring staff or staff may also be reduced, such as registration which now has new innovations. Which makes us not have to register for the event by signing the name or filling in with the pen, the event site will not have to use a lot of staff to watch. While also allowing the registration process to be faster than before. And Participants can comment and evaluate through the website or online. This makes data collection easier and more precise. (Jinjutha, P. Zip event manager.2018)

7- Literature Review (at least 75, maximum 300 words)(Please write down the main academic sources written in this study area.)

I want to develop FTU Student Activity System. It is a web base system that is to develop for Fatoni University and it operate via network, which can help the system to operate with systematically and it will make a convenient for all user of this system as well.

If you have a subject in your application documents that you think is not clear enough and you want to explain, or if you want to draw the attention of the evaluation committee, please briefly explain in this section. You can write the description in the language you can express yourself.
